The Fenestra Centre

The natural choice for your business meetings

The new multi-purpose venue to serve the needs of the North Lincolnshire business community. The place for conferences, seminars, training courses, product launches.

Why Choose The Fenestra Centre

The Centre is situated in a large and attractive single storey traditional farm building, rich in character, with thick limestone walls, brick pillars, exposed beams and large windows. It has been purposefully and sympathetically restored to fulfil its new role.

The Fenestra Centre is ideally positioned in a convenient and accessible location, with ample free parking. It is close to Scunthorpe, with easy access to the motorway, North Lincolnshire and beyond.

The centre lies in a visually impressive, rural location, on a farm which has been recognised for its environmental efforts and achievements.

The Fenestra Centre is an adaptable and stimulating location conducive to efficient and productive use of both time and money.

All these factors, combined with a high level of privacy, mean the Fenestra Centre is the natural choice when choosing a venue.

Why Fenestra? fenestra' derived from the latin word for windows

"Fenestra was chosen as the name of our conference and education centre because, it reflects the character of the building itself, as well as our ethos of providing and encouraging individuals to make the most of opportunities"

What next for the Green family?

Our priority is to develop the 'Fenestra Centre' business as feedback from clients has been very positive. The high level of personal service we offer is as important to the client as the facilities themselves. It is most pleasing to be taking multiple and repeat bookings. We are keen to widen the scope of the business.

The positioning of the centre within the countryside environment of the farm, with its land and buildings, also provides excellent opportunities for educational activities, along with those of 'team building' and business hospitality events.

The Fenestra Centre is the first of an impressive selection of buildings on the farm to have been given a new role. Looking to the future, the additional buildings, which total 18,000 square feet, offer great possibilities. We would welcome expressions of interest, as it would be beneficial for both parties to be in a position to restore and convert these buildings in a bespoke way.
